# ABOUT THE WORKSHOP

---

Cybersecurity has a grave talent shortage impacting every small and large industry. The rise in cyber-attacks is bringing everyone's attention of bridging this gap to counter unwanted intrusions and protect imperative information and assets. Our aim is to build a pipeline of cybersecurity talent in India. This workshop is a small step towards building awareness about the urgent need of cybersecurity talent in India to secure our Country against a wide range of cyber threats and explaining the roadmap to students about how to become the next-gen cyber security expert.

## Workshop Highlights:

This workshop has been designed by one of the Industry's leading and award-winning Infosec Consultants and Practitioners. This workshop is best for anyone who wishes to start his career in Cyber Security. This is also ideal for other individuals who would like to know more about this Industry.

The Salient features of the Workshop are:

1. 2-3 Hours Hands-on Training
2. Conducted by Award Winning Cyber Security Company
3. Learn about Cyberkill Chain, Analytics, Ethical Hacking and many other advanced technologies.

## Workshop Content:

The workshop will cover basic and some of the most advanced Cyber Security topics and tools. The duration for the entire workshop will be 3-4 Hours and be covering following topics:

1. Cyber Security Introduction
2. Career in Cyber Security
3. Cyber Kill Chain
4. Hands on Ethical Hacking Training
5. Purple Skills (Red Teaming and Blue Teaming Skills)
6. SIEM
7. Wireshark

## Workshop Attractions:

Apart from learning and discovering various new security technologies, participants will also enjoy following benefits:

1. Internship Opportunity
2. Exciting Prizes for Top Participants
3. Chance to visit our Hyper-realistic Security Lab
4. Enhance your knowledge through various Live Hacking Demonstrations

## Pre-requisites:

- Laptop with at least i3 Core Processor (Generation Five) with Windows O/S
- Working WIFI and LAN Connectivity.
- Virtual box : Version 5.2
